FALL MEETING OF FEDERATION AT DEERFIELD.

The second meeting of the Arlington Heights Federation of Evangelical Women's Organizations, was held in the St. Pauls Evangelical church at Deerfield, Ill. Rev. F. G. Piepenbrock is the pastor last Friday afternoon.

The program opened with a beautiful organ selection by Mrs. F. G. Piepenbrock, followed by the invocation and song services led by Rev. F. G. Piepenbrock.

Mrs. L. Kiehm, chairman of the Devotional work, led at that service. Mrs. Louis Seefker, president of the Deerfield Ladies Aid Society, extended the most hearty welcome to each and every one, and immediately all could not help but feel the welcome into their midst. Mrs. J. C. Voeks, president of the Federation, responded most graciously and at the same time expressing the thoughts of all who were in attendance.

Miss Catherine Zimmer of Highland Park sang a beautiful solo entitled "Teach Me to Pray," which was a fine thought at this time. Mrs. Roth accompanied her.

The address of the afternoon was given by Mrs. A. A. Sotier of St. Louis, Missouri. Mrs. Voeks, in her introduction, told that Mrs. Sotier was the national recording secretary of the Evangelical Women's Union, a member of the board of the school at Oakwood, Ohio, and one of the founders in this great movement. Mrs. Sotier's subject was "Building Christian Homes." A subject big and broad, but she surely made every one present feel the importance of the home, a good home, a Christian home, a good mother, a good Christian mother, and especially a home where God was known and an ever present guest. She showed to us that the home and church went hand in hand and thru the various departments of our federation with its fellowship, membership, social and above all, devotional committees. We were linked together so closely together, that it could not help but result in better Christian homes. She told of the importance of each doing their duty to their homes and to their church, how each must work thru the Sunday school, the league, the brotherhood, the ladies aid, and then to our institutions and homes, our obligations we owe to each of them.

She urged broader education into our own church activities, the missions and all rested on the influence of the home. The federation being composed of mostly mothers of our church, she felt it was here where the Christian mother should more than do her part. Her address was sure full of inspiration and finally a challenge to all present to see if they were all really and truly doing their part.

Mrs. J. C. Voeks followed this address with a very fine and minute report of the conference held at St. Louis, Sept. 6-8, 1927. It told of the wonderful good that is being derived from these federations and how it is educating our women about the church. Her report was greatly enjoyed and each one felt that they were present themselves.

The offertory was then received, which amounted to \$26.06.

Mrs. Voeks then presided for the business meeting, at this time it was voted to give a gift of something worth while to our new home being built at Bensenville of which all Evangelical people are very proud.

The meeting closed with hymns and the Lord's prayer, each one felt it was an afternoon of spiritual blessing.

Delegates for the spring meeting and from Lake Zurich for a summer meeting at Deerfield. All are looking forward to these. It is regretted that many of the churches were not represented, and it is hoped that all will endeavor to attend the meetings in the future. There were about 120 present.

**Move To Amend
School Finance Laws**

The Illinois State School Boards Association, at their meeting at Urbana, last week, appointed a committee to study the school laws as they relate to finance and to do their utmost at the next session of the Legislature in order to secure more favorable laws for the school districts in Illinois.

School finances in Illinois, are in a bad way, owing to the many and varied laws passed and the lack of laws that should be passed. The committee from the school boards association will no doubt make a comprehensive study of school finance and make appropriate recommendations to the Legislature at the next session of the Legislature.

The state school boards association met in conjunction with the city superintendents association, and closed their meeting Thursday noon with a big banquet at the Urbana First Methodist church at which some 300 persons were present.

The convention, at its closing meeting, passed a resolution, condemning the actions of persons who are fighting against former laws of schools, McAndrew, of Chicago, and others who used methods opposing the progress of the public schools of the state. President C. B. Morris, and Secretary, A. G. Smith, of the Palatine Township High School Board of Education, represented the Palatine schools at the convention.

The finest wedding cards to be had may be obtained at the Cook County Herald Office, Arlington Heights, at a reasonable price.

Prizes to be Awarded In Herald Contest At Dream Home

How would you like to walk into the Emerald Shop, order a brand new hat or some other of the dainty things milady wears and say "Charge it to the Cook County Herald?"

Or how would you like to walk into any store in town and order \$5 worth of goods and let the Cook County Herald pay for it?

And on top of all this, how would you like to receive a nice clock for \$15.

All you have to do is to get into the Know Arlington Heights contest. Anyone who can write a letter, should read this carefully and get in the swim. The water is fine.

Next Sunday at the Cook County Herald's Dream Home, the first series of prize winners will be announced. All those who have written letters in the Know Arlington Heights Contest must be in hand in order to participate in the awards.

Following is Mrs. Thomas J. Davis' letter on the Carl M. Behrens advertisement:

Contest Editor,
The Herald:

I have read all the ads in your paper carefully and have decided that the ad of C. M. Behrens and Company is a very good one. I think the most important thing of all is to have a nice home with all modern improvements, in a nice location and insured against fire, etc.

A nice little bungalow with modern improvements, gas, light, heat and all other necessary things, to make the most important of all. Practically everyone's aim is to have a nice home.

Mrs. Thomas J. Davis,
State Road and Davis St.,
Arlington Heights, Ill.

Anyone wishing to enter this contest has only to write a letter about the advertisement you like best in the Herald. State why you like it and why the advertiser is important to Arlington Heights. Be at the Dream Home Sunday, rain or shine, for the first group of prizes. The contest will run on indefinitely so there is yet time for many more letters and many more prizes.

There are three groups of prizes: General Public: \$15 cash; second \$5 in trade; Third, yearly subscription to the Herald.

High School: \$10 in cash; \$5 in trade; yearly subscription.

Grade school: \$5 in cash; \$5 in trade; yearly subscription.

If you do not clearly understand this contest everything will be made clear at the Dream Home Sunday.

The location of the home is six blocks south on Mitchell street in Fairview Addition.

Illinois Cities and Villages Cooperate

It ain't the guns nor armament, Nor funds that they can pay, But the close cooperation, That makes them win the day.

It ain't the individual, Nor the Army as a whole, But the everlasting team work Of every bloomin' soul.

The above lines from Rudyard Kipling might well be called the keynote of the convention of the Illinois Municipal League, which was held at Peoria last Thursday and Friday. A little slip of paper with those two verses upon it were found by each delegate as he opened his program and it is the "everlasting teamwork" of the cities and villages of Illinois which are members of the Illinois Municipal League that is making the league yearly more and more of a power in the civic affairs of Illinois.

The league has representatives at every session of the legislature, and these representatives keep in close touch with all legislation affecting the municipalities of the state and the league sends out frequent bulletins keeping its members informed as to the standing of the various bills which are of interest to the member cities.

Legislation, however, is only one activity of the league and the home office of the league at Urbana, is continually sending out bulletins and information relating to all manner of subjects of interest to the members.

All of the many problems facing Illinois cities and villages were talked over at the Peoria meeting, and a great amount of good was accomplished, as they are now handled by the commerce commission, finance, uniform ordinances, taxation, special assessments and a hundred and one other subjects were discussed by the convention.

Special sessions for the particular problems of their sections were held by the city clerks and finance officers, the building inspectors and the attorneys. In these sectional meetings the problems of these departments were discussed and there group meetings resolved themselves into regular experience meetings with all present taking an active part and from this general and informal discussion, much good was derived by those present.

Peoria proved a fine host and treated the delegates royally. May Mueller of Peoria, in his address of welcome, fired a humorous shot at Big Bill Thompson's anti-English ravings by saying "Peoria also stands for America first, but English walnuts are still sold in our stores, the English sparrow still

DR. RENNER HOST TO BROTHER LIONS VENISON DINNER

Dr. J. H. Renner, himself a true Lion, recently invaded the jungle of Colorado and made his kill. He invited fellow Lions and their laids to enjoy that "kill" with him at a venison dinner at the St. Paul's church, Palatine, Tuesday evening.

Roast venison is delicious—it is as tender as chicken and appetizing as the choicest wild fowl, when roasted in the manner that Mrs. Renner can do it. Lions who had been advised to sharpen their teeth before sinking them into deer meat were agreeably surprised when the savory dishes of roast buck were placed upon the tables. The doctor called it a venison dinner. It resembled a Thanksgiving dinner from the size of the menu. It had all the fixings of a Thanksgiving dinner. The ladies' aid of the church served the dinner, but Dr. and Mrs. Renner selected the menu.

It has been some time since the Palatine Lions have fed and it seemed like old times to roar together and sing the good old Lion songs. It was called a "return-to-life" meeting and the only recognition of appreciation that the doctor would accept from his guests were their promise that they would again reinhabit the Palatine jungle.

Members of the DesPlaines Lions arrived near the end of the dinner and gave short talks, urging the cooperation of the local club in district Lions activities.

Through the kindness of Lion Miller, the Lions had the opportunity between courses to enjoy imitations and ventriloquisms given by an artist in that line.

This entertainer was very good and the guests were sorry when he had to leave to catch a train. He likewise led the singing in which there was the usual Lion pep. The Lions were a peppy bunch that night and though sometimes a little bashful about roaring before their ladies, Lion tamer Hart was able to get real husky Lion roars out of the crowd.

The hit of the evening was the arrival of a "double" Lion. He was not only a lion in appearance but a lion in reality. He arrived with all the "fine feather" that Lions wear who inhabit the Lincoln Park zoo, yet he was possessed of great intelligence. He was able to pick out among the crowd of diners, men who were described to him by their past activities for Palatine's welfare.

Following the dinner, the guests were loath to depart for their homes. A few including the doctor, were called away on account of business, but the others remained for nearly an hour. A table containing exhibits secured by Dr. and Mrs. Renner upon their trip was interesting and Mrs. Renner was called upon to tell many things about conditions in Louisiana, where the latter part of their vacation was spent.

Dr. Renner spent his vacation in Colorado, the chief reason for his trip being to "get his deer." The manner in which he made his kill and interesting points of his trip were told in these columns three weeks ago, when the promise was made that a venison dinner was on the way. The doctor desired to wait until Mrs. Renner had returned home from St. Louis, where she stopped when on their homeward journey to visit her parents.

The front of the car will be of the Lincoln type. The rear will embrace a design between a Buick and Cadillac. The lines will be distinctive foreign.

NEW FORD COMES OUT SATURDAY

This paper is in receipt of information which it considers authentic that all Ford dealers of the Chicago territory have been officially summoned to report Friday noon at the Chicago headquarters of the Ford company. Very likely they will not be allowed to make public any word about the new Ford until the following morning, Saturday at which time all the dealers are instructed to have returned to their respective homes, carrying with them a view of the new car and a carton of literature weighing not less than 47 pounds.

Perhaps the loss that the Ford dealers have sustained during the past summer will not be all in gold.

The illustrations of the new Ford that have been photographed and produced in the Chicago press are not the type of car which the public will see and buy next Saturday.

The real Ford is different than anything heretofore produced by automobile manufacturers. It will have four wheel brakes. The motor will register 34 horse power. It will have a longer wheelbase. The tires will be balloons 40x4.50 mounted on wire wheels.

The front of the car will be of the Lincoln type. The rear will embrace a design between a Buick and Cadillac. The lines will be distinctive foreign.

FIRST AID COMPETITION

Scout executive Landane sat in conference with Dr. Gentles of the Red Cross and other scout officials relating to a first aid championship contest.

Chicago scouts have been in competition since 1913 and this year their plan is to allow outside councils to participate. This means that every troop in the Northwest Suburban Council can and ought to develop a first aid team. After the teams have been developed they could get together for elimination, and in this way we can determine the winner, and this team will compete with six outside council teams for championship and this team will then compete against Chicago teams for the beautiful Red Cross championship of Greater Chicago. The whole idea is to increase the knowledge of first aid.

When the boy sees a real need for first aid he is able to use it, thus saving the lives a great many times by the knowledge received. The Red Cross society is only too glad to send experts out to give such aid and instructions as are necessary. Besides we feel that the doctors in the various communities will be glad to lend their able assistance in the way of instruction, etc.

We are hoping and planning that we will be able to determine the winning team before the rally in February so that the team will be able to make a demonstration at that time.

Details will be published at a later date and sent to each scoutmaster.

The troop standings are as follows:

Troop 6 DesPlaines 3000.
Troop 11 Park Ridge 2911.
Troop 1 Park Ridge 2547.
Troop 4 Park Ridge 1349.
Troop 7 Arlington Heights 764.
Troop 15 Arlington Heights 312.
Troop 17 Norwood Park 220.
Troop 9, Palatine 120.
Troop 5 Des Plaines 85.
Troop 12 DesPlaines 60.
Troop 3 Park Ridge 20.

The division of student loans was organized through the belief of the founder, Mr. William E. Harmon, that character and group responsibility are a sound basis for credit, without commercial collateral.

The foundation, by the careful administration of its own loan fund, in harmony with sound business practice, is endeavoring to point the way toward student loans as a practical and worth while investment.

The student who pays for what he gets, in a straight forward businesslike way, is more likely to succeed, than the one who is either allowed to slide out of his first business contract, or is given some thing which created perhaps even unconsciously, the idea that the world owed it to him. It is to make it possible in the future for worthy men and women to finance their way, in part, at least, on their own merit, that has caused the Harmon Foundation to pioneer in this field. The five main features of its plan are:

1.—Careful selection of risks.
2.—Installment form of repayment.
3.—Strict follow up.
4.—Group responsibility through the mutual guarantee.
5.—Establishment of financial credit rating.

PROTECTIVE ASSOCIATION ELECT OFFICERS

The Farmers Mutual Protective Association perfected their organization at a well attended meeting at the Palatine village hall Monday evening.

The advisory committee appointed ten days ago reported upon the constitution, which they had been instructed to draft and the meeting proceeded to adopt and approve the constitution as drawn.

A membership fee of \$10.00 was established with annual dues of \$2.50 per year. The association may also levy an assessment or assessments of not to exceed \$5.00 per year in case this money is needed to pay for rewards offered for the arrest of anyone stealing from members of the association.

A general discussion of the merits of such an organization took place during which many speakers expressed their views.

The recent pleasant season, during which hunters ran wild, over farmer's fields, came in for a great deal of discussion. Mrs. MacDowell, manager of the Waken farm, told of her experiences with a gang of drunken hunters. One of the men stuck his fist under her chin and gave her a violent shove during the course of her talk with them regarding hunting on posted lands. Such insults will be harshly dealt with if the new association gains the support it deserves and has a number of its men appointed as special deputy sheriffs as is provided for by the state law.

Officers Arnold and Dricker of the county highway police were present and Mr. Arnold told the audience of the work of his department and how it was hampered by a large territory and but a small force of men to cover the territory.

The following officers were chosen unanimously by the association. These officers also comprise the board of directors or executive committee.

President—Fred Blume.
Vice president—H. F. Bruns.
Secretary—T. C. Hart.
Treasurer—Thos. Underwood.
Committeemen—Louis Rohle.

The newly elected officers will take steps at once to see just how the association is to proceed under the laws which grant special powers to such associations and as soon as the organization is firmly established, a membership drive will be staged. All persons who donated to the recent fund for the detection of the cattle thieves, will be classed as charter members and the money they paid to that fund will be applied to their membership dues.

The next meeting will be held upon call of the executive committee when they complete the formation and details of the organization.

THANKSGIVING

V. I. BROWN
Principal of Arlington Heights
Township High School

Thanksgiving as a National holiday occurring annually on the last Thursday of November may be said to date from the year 1864. Its origin is to be found much farther back in our national history.

For seventeen weeks in the fall of the year 1620, a small sailing vessel carrying 102 persons battled the waves of the Atlantic ocean and headed persistently westward. That vessel was the Mayflower carrying the Pilgrims to their new home in the unsettled wilds of America. On November 9th, they sighted land. Authorities fail to agree on the date of the landing. Some say November 21, some December 16, and one historian places the date as late as December 22.

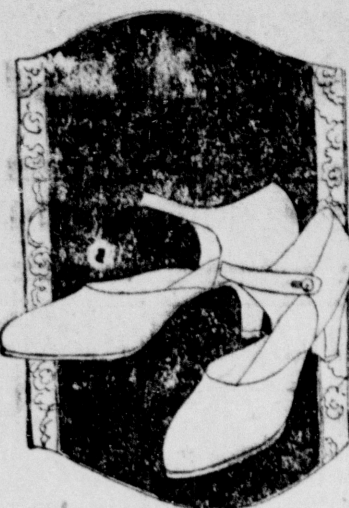

Whatever the date we know the hardships of that first winter. Exposure and lack of food brought tuberculosis and before spring 40 of the colony were buried. Among those who perished that first winter were Gov. Carter, and the wives of Wm. Bradford and Miles Standish. Wm. Bradford, a young man only 30 years old, was made governor. Twenty six acres of land had been cleared and 20 acres of this was planted with Indian corn. The corn flourished and made a splendid crop, but the barley and peas which had been sown were a failure. And yet young Gov. Bradford, whose wife slept in a new grave at the edge of the little village, proclaimed a feast of thanksgiving for the mercies of that first year and the bountiful corn crop. When Wm. Bradford "sent out four men to shoot wild fowl that the infant colony might have a more special manner of joy," he little realized to what his pious act would in time lead. Evidently the hunting was good for we read "the four killed as many fowl as served the community almost a week." Wild turkeys undoubtedly formed a large part of the kill brought in by the four hunters. There were wild fruits no doubt, but no cranberry sauce or pumpkin and mince pies at this festival. If the turkeys and other wild fowl were stuffed the stuff was most likely made from beechnuts. Since we read that only seven cabins were built that first year the feast was no doubt outside before the open fires. This was no Thanksgiving dinner, it was a weeks feast. Good old Massachusetts and his braves were invited and joined in the feasting. After feasting three days the Indians decided to contribute their part and went out and brought in five deer. Think of having your choice between the light roast, the dark meat or roast venison. No exact date is possible of determination for this first American Thanksgiving. We only know that it was some time in December, 1621.

The practice of setting aside each year a day of Thanksgiving continued in this colony though the date varied. During the Revolutionary War congress annually recommended a day of thanksgiving and prayer. In 1777 the date was Thursday, Dec. 18, and in 1778 the winter at Valley Forge it was May 7.

The first national Thanksgiving Day was proclaimed by George Washington in 1789 and was set for Thursday, Nov. 26. Washington stated that "both houses of Congress have by their joint committee requested me to recommend a day of public thanksgiving and prayer."

In 1795 Washington again proclaimed a day of thanksgiving and prayer on Thursday, February 19. Presidential proclamations ceased then until 1815 when President Madison by proclamation designated Thursday, January 12, as a day of thanksgiving and prayer. It is interesting to note how periods of privation and trial cause men to recognize their dependence upon divine power. The United States had just passed through the war of 1812 when Madison called this day of thanksgiving and prayer and we do not have another presidential proclamation until 1861, the beginning of the Civil War, when President Lincoln designated the last Thursday in September as a Thanksgiving Day. On April 10, 1862, President Lincoln again issued a proclamation calling for a day of thanksgiving and prayer. This seems to be the only occasion on which a president issuing such a proclamation has failed to designate the day. Mr. Lincoln said: "It is therefore recommended to the people of the United States that at their next weekly assemblages in their accustomed places of worship which shall occur after notice of this proclamation shall have been received they specially acknowledge and render thanks—" In 1863, President Lincoln designated Thursday, April 30, as a day of thanksgiving and prayer.

The year 1864 marks the beginning of the present practice of annually proclaiming the last Thursday of November as Thanksgiving Day. There is no congressional action or law in the matter and no president is under legal obligation to proclaim the day or having proclaimed it to designate the last Thursday in November. Custom and tradition have made the practice one of our unwritten laws and bold indeed would be the President who would refuse to recognize the custom.

LADIES INVITED

Harris & Oltrogge, Props.

Comedy and tragedy, a repetition of the generations gone before. O, I know we get all puffed up and think as Job said of his tormenter "we are the people, and wisdom will die with us!" But we are not—and it won't!

To proceed with the reasons for thankfulness: Our churches, our schools, our faithful pastors, and teachers; our public officials; yes we are thankful for all these insofar as they are right and living up to their convictions of right "as God gives them to see the right, and some of them are so living—yea and let us be thankful for those who have right convictions, even though they dare not express them, they may somehow help to move the minds of men aright.

Repetition—thanksgiving, so devoutly established by our forefathers, comes year after year: We prepare our feasts and we mumble our thanks. Yet we are truly thankful? And just how are you and I to prove our thankfulness? We listen to the same sermons. We voice the same prayers and we prepare the same feasts. Yes, pretty much the same as our grand mothers prepared. We may have a different way of roasting our turkeys or we may substitute pineapple for mince pie, and angel food for fruit cake. Yet is all this giving thanks?

To be thankful, we must share, yet who are we to share with? Most have as much or more than do we? Yet we must share, and that is thanksgiving. What's the use of theorizing about it to be thankful means just that, and nothing more. There are so many different reasons beside those noted for Thanksgiving. We might be thankful there were no more armies of advertisers to monopolize our territory in the Herald. But that would be wicked. Some are thankful for the new race course. Some are thankful for the coming electric lights, some are thankful for a good grandmother, to cook their thanksgiving dinner, let us give thanks.

Why is it we are all so blind? So bent on craving more. That we forget just to be kind And count our blessings o'er?

Why do we not appreciate God's gifts till they're withdrawn? To speak kind words, why do we wait Until our friends have gone?

I wonder if we ever know What gladness we have had, If when our tears must overflow We're thankful we've been glad?

Let us just for one brief space look back over the year and take a mental inventory of the things we are most thankful for. As a community, surely we must place first of all for freedom from "the noisome pestilence. Our doctors can give you statistics proving that this has been a season of health in our town, few deaths from epidemics.

Another reason for special and fervent thanks, is the "harvest plenty," despite the howls of false prophets—on crop failure. We find our larders provided with plenty for the winter's need. Material things are not of greatest importance, yet we are sorry creatures when without "daily bread" and a few potatoes.

All the seasons throughout this year we have heard and read of destructive storm sand floods, of people made destitute and homeless. A terrible year of disaster and distress for thousands of people as good—yea no doubt better than we, yet we have been kept safe in our sheltered homes. Are we thankful?

Twaddle all this you say? Mere platitudes, repeated year after year that may be true. The evening "the morning were the first day." Yet we find this repeated three hundred sixty five times each year. Our lives are fun or repetition, from the cradle to the grave.

In your hearse, there's nothing so bad that it mightn't be worse."

Could fill pages with things to be thankful for in our every day lives. Today I was thankful, very thankful to hear a young workman from Chicago say, he was thankful for prohibition. He gave his reasons not least among them the safer and saner way in which a working man who wanted to keep sober could do so. He wasn't moralizing nor preaching, but just stating plain facts, from the experience of hard working man who has tried to save his earnings. Yes thankful for any thing which protects and safeguards the working men.

O, yes, and though those numerous ads have crowded me out of "the paper," I've been boosting for our business interests too many years not to see those same ads. Of course some of the realtors do not need my boosting just now. And, by the way, I trust none of our realtors will have the trouble of one spread about in another town, who sold a place on the installment plan, to a man and wife for a home and in a short time they separated, so the disappointed realtor had to move into the place to live. I expect he had failed to advertise in the Herald!

Thanksgiving Day! May it find joy and peace, yea and plenty in every home in Arlington Heights. Thanks to our Heavenly Father for the old established homes. Thanks for the many new homes. May God bless these new families, who come to live among us in "The City of Good Neighbors," and may they have that greatest of all blessings, thankful hearts. If any have had time to follow me in these rambling lines, be thankful here is where I and this chapter!

I'm thankful for a humble home If not just to my taste, To it the friends I love will come And find no shams, or paste.

I'm thankful for the morning sun We see unshadowed rise, And that when weary day is done I own the whole wide skies.

I'm thankful for the good made known For evils put to rout, And for the things I cannot own I've learned to do without.

I'm thankful for the highest good That comes from all we share; For crosses better understood As farther on we fare.

I'm thankful for the simple things The Father sends to all, And for the faith that ever rings Onward its promise call.

—Elinore Crisler Haynes.

Cast Announced for Tri-Sigma Play

Thanksgiving Special At Ivory Oil Station

This is bargain week at the Ivory Oil station. That firm calls it a Thanksgiving week special, but the price quoted is a bargain to every car driver, who wants to put his auto in shape for winter driving.

An announcement in the advertising column tells how much is given for \$2.25, but for fear you can not wait to read the ad. here it is. During this week, the Ivory Oil at Arlington Heights, will drain your car, grease it complete and refill with high grade ivory oil, all for the price of greasing, \$2.25. They will even call for and deliver the car.

Mrs. Augusta Garland's Birthday Is Honored

Mrs. Augusta Garland kept open house to a large company of relatives and friends in the home of her son, Mr. Wm. Garland Sunday honoring her birthday. For some time too ill to leave her bed, this good cheer friend and devoted mother sat reclining on her bed and made merry with her many friends. From the city came her sister Mrs. Garthe, her daughter and two sons with their families. Mr. and Mrs. Fred Wittbold, Mr. and Mrs. Ted Wittbold from Des Plaines; Gifts they brought her good to see, and loving wishes.

The day after Monday some of her neighbors came in to continue the festivities and an old friend from Wheeling came to call, and on Saturday, Prin. Snyder, and Mr. Purce came to pay their respects to their honored friend.

Talk about showers for brides—none of them were or have been more completely delighted with flowers, and gifts than was this kind dispenser of cheer and courage, who is completely shut in. May God give her continued courage and happier returns of the day.

Another Old Settler Dies in Arlington

Mrs. Edward Greenberg, who has lived nearly all of her life in the vicinity of Arlington Heights, died Tuesday morning, Nov. 22 at the Sherman hospital, Elgin. The funeral will be held Friday, November 25, at 1:30 p. m. at the late residence and from there to St. Peter's church, where Rev. Noack will officiate.

Obituary

Caroline Garlip was born in Hanover, Germany, Feb. 2, 1856. She came to America with her parents when 18 months old. They settled in Chicago and from there went to Elk Grove and finally located north of Arlington Heights. Deceased was confirmed April 10, 1870, by Rev. Roeder and was married on Feb. 6, 1876 to Mr. Greenberg. Nine children were born, three of whom preceded her in death, Henry, Clara, and Arthur. She is survived by her husband, two sons, Edward and Arthur, and by four daughters, Della, Mrs. Kuhlmann, Margaret and Gertrude, and two sisters, Mrs. Frank Eggert and Mrs. George Higgins of Des Plaines.

THANKSGIVING

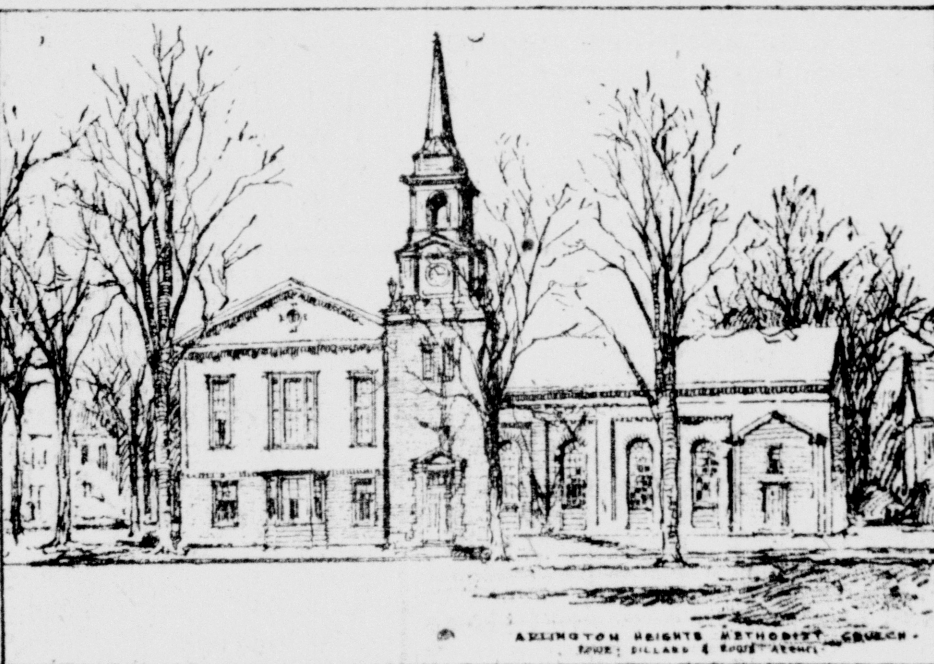

WITH the dawn of Thanksgiving Day the glowing spark of gratefulness which is within the breast of everyone bursts into flame. This day we thus give thanks, for having so generously received. What a wonderful American thought—one selected day so devoted to giving thanks.

And as we partake of the day's festivities at the firesides of friends and families, what a great good for finer citizenship comes from the influence of it all. Indeed, we have much more to be thankful for in having Thanksgiving Day itself: the blessedness the day itself bestows.

A Noble Character

Dedicated to the Memory of the Late

HON. GEORGE C. KLEHM

On summer days, as I would pass
A red brick house, 'mid verdant grass,
On village edge and main highway,
I lingered, passing, many a day!

A gentleman with snow-white hair,
And calm and kindly face, sat there;
He often gazed in lofty trees,
To see the birds; he loved the trees.

The clear blue background of the sky,
The fleecy cloudlets passing by,
The fragrant flowers, the sheltered nook,
And nature's beauty, not in book.

He liked the old folks and the young,
He loved to have them often come;
How do I know? I cannot say;
I only feel he lived that way.

I never spoke a word with him;
I never saw his eye grow dim
With some sad thought; I never heard
His voice rejoice with happy word.

Am yet I knew him! In some way
His goodness crept into my heart,
And made me know his kindly way,
His mastery of friendship's art.

Such cannot die, but only go
Where friendship's kindly afterglow
Reflects on those they left behind,
The riches of the heart and mind.

A protest mass meeting was held at Central and Diversey avenues Sunday afternoon to demand relief from the transit companies, the Illinois Commerce Commission, and the city administration. Resolutions were adopted asking Mayor Thompson to refuse extension of the surface line's franchise Dec. 1, unless extensions are made on Diversey, Belmont, Fullerton, Austin, Irving Park, North avenue and other northwest side avenues. The resolution also demanded affirmative action by the Illinois Commerce Commission for feeder bus lines.

According to the promoters of the mass meeting, there are 35,000 people in this district without transportation. Ten thousand circulars advertising the meeting were distributed Thursday. No resident of west of Harlem avenue was recognized by the local scribe, at the meeting and we take from that that folks are well satisfied with the service the Wilcox is giving us. Incidentally another 29 passenger coach has been ordered by Wilcox to be put in service soon.

RECEIVERS OFF HOOKS

Shut Telephone Door

When a telephone is left off the hook, not only is all inward service to that telephone interrupted, but if it is a party line, it is impossible for the operator to ring any other telephone on the line as long as the instrument is off the hook.

There are a surprisingly large number of cases when telephone service is interrupted in this way. In part of New England alone, for one month recently, 10,556 subscribers are cut off from telephone service for a time because of receivers being left off the hooks.

This may be done accidentally when someone is called away from the telephone in a great hurry, or forgets to hang up, but in many cases the subscriber thinks he has hung up the receiver and has left the telephone in perfect condition when, as a matter of fact, she is virtually leaving it off the hook.

In other words, it is necessary to pull the hook clear down and if this isn't done, the result is the same as if the receiver were left off entirely. Oftentimes, a book, a bunch of paper, or a pile of magazines placed nearby the telephone prevents the receiver from being pulled a way down, and immediately there is trouble because no one can get that number as long as that condition continues.

It is understood that some of the people in this village have employed attorneys to get a reduction on their paving program next year and from the way one of these attorneys application reads, it appears he will get more money if he has the pavement knocked out. Now, if you are a party to having the pavement knocked out entirely you may be sorry, for it may be the cause of holding up an improvement for this village that has been long sought after. Just consider the wishes of some of your own townspeople, and try to get a reduction instead of knocking it out.

Look at your contract again, and read it carefully, then ask a few questions from some one else, and you may find out you have signed the wrong application.

Isn't it queer that it is generally the case that the people who have to pay the least, are generally the ones that cause the most commotion? And it is high time that there was someone who could do something that would half way meet the approval of two thirds of the people. So take what you now have, and go ahead and help build a village that you can be proud of. We know some one always wants to be different from the other fellow and everyone is dishonest except thee and me. So come together and work together for if you don't you will still be in the mud and you will be ashamed of your town.

The Franklin Park Community Choir will practice with St. Gertrude's choir in the basement of the St. Gertrude's church Saturday night at 8 o'clock. They are practicing a cantata "Out of the East," by Wilson, to be given Christmas week under the direction of Harry Carfield Taylor. It is the wish of the director to have all that are inclined to help in this work to come out and practice with them. You may not have sung for a long time but you may still have a good voice and you can be sure of a hearty welcome. This concert will be given to show the Christmas spirit and we know everyone has something to be thankful for this year.

Carlstrom Puts O. K. On Power to Condemn

Attorney General Oscar E. Carlstrom cleared away another possible legal barrier to road pavement widening in Illinois when he ruled that the state highway department has the power to condemn rights of way 60 feet or more wide for highway purposes, where property owners refuse to accept reasonable prices for it.

The ruling came as a result of right of way disputes in the new state routes 60 and 61 leading from the Wisconsin state line north of Richmond, Ill., southeast through Ingleside, Wauconda, Lake Zurich and Park Ridge to Chicago. In securing the right of way for the state, McHenry county officials attempted to make the road a uniform 60 feet and property owners raised the question of whether this width could be condemned. In Cook and some neighboring counties a uniform right of way width of 100 feet has been adopted for all entirely new main roads and practically all of the land needed has been donated by property owners.

Mr. George A. Quinlan, county superintendent of highways, declared that the new ruling will have little effect here other than to make the county's wide right of way policy secure against any possible tangles in the future.

Churches Cooperate In Interest of Music For Christmas Time

We are glad to learn that the churches of Franklin Park are coming together for a concert this Christmas. It is a wonderful thing to see people getting to understand one another. There is a movement in most all cities this year to have the churches unite for a song festival and we are indeed grateful to the ones who bring this about. We know the Rev. Father Lieser with Rev. Hensley, will do all they can to help show the good Christmas spirit. When Father Lieser was in Plainfield he was a friend of everyone, and while we are sorry for his Plainfield friends, we are glad to have him with us, for he is a one who believes in boosting for his community and tries to be a builder. We understand he has thrown open the auditorium of the church for the young people to practice their Christmas music. Under the direction of Mr. H. G. Taylor, this music will be a success. From what we learn from Mr. Taylor there are some very good voices in the choir this year, and we hope to see a large chorus. After all is said and done, this community work shows a good spirit and by uniting on one common level, so many good things can be realized from a cooperative movement.

May this good work continue and we hope the work of these churches will not be in vain.

School Bands Show Progress

From the report of the music teachers, there are between 50 and 60 children practicing in the band. So don't you be surprised when you hear a large band on the streets one of these days for it will be our own children that are playing. Too many good things can not be said about those who have stood behind these young people and have seen this band realized. These young people have worked hard to put this band over, and this young generation some day will be the rulers of this suburb town. When you have passed on. So if this generation can be taught clean, wholesome ideas, some day you will see a beautiful suburb and you and I will look back upon a few distasteful things that have happened in this village, but let us hope our young folks will have forgotten. So it is up to you, Mr. and Mrs. Somebody to get behind your children and do for them what you wish could have been done for you, for if you don't, it will be you that suffers, not they, nor the community. We also hear that there is now an orchestra of some 20 pieces in the grade school. They have an excellent music teacher, and she is doing the children a lot of good.

We notice the physical director, Mr. Hunt, out with the children from the different grades on the school grounds, teaching them physical training. Something that is needed. It helps build up their bodies, so they will be more efficient in their school work and it has shown in the children's

BENSENVILLE

Mrs. Louise Sutter, who has been staying at the home of her parents, Mr. and Mrs. Joe Bodenburger since the arrival of a little daughter three weeks ago, returned to her home at Palatine Saturday. Grandma Bodenburger says she misses the little one even if she had only been at her home so short a time. We feel that the auto road between Bensenville and Palatine will be kept open this winter.

Since the two accidents on Irving Park Boulevard recently, apparently caused by reckless auto drivers, some of our thinking people have seen to it that a large sign, calling autoists attention to the fact that our new high school building is close by, has been placed on York street on either side of the school grounds. The school is there, the signs are there, and the auto drivers are continually passing there, so there is no excuse now why any and all who disregard the safety of our children should not be taken into court and made examples of by paying not the minimum, but the maximum fine. There is no excuse for any auto driver tearing down the street as though they were trying to make a get-away.

Bensenville people who remember Mr. P. L. Rupp, who, at one time, was Supt. of Terminals for the C. & M. St. P. Ry., will be grieved to know that the old gentleman died at his home in Chicago first of the week and was buried Wednesday. The sympathy of his many co-workers here is extended to his bereaved family.

We stated a few days ago that the paving company had tied up for the winter. Well they did, but on the following day, they were induced to get out the machinery and pave a half width piece of Green street from York street to the Duntman green house. This gives us driving space in getting to the elementary school building and the Farmer restaurant, besides it will allow the same privilege when the other half of Green street is paved in the spring. They were also lucky in having this warm spell until the paving got settled enough to insure its not being hurt by frost.

Rev. and Mrs. Stangor were visitors at the Geo. Shaw home Sunday afternoon. Relatives of the Volberdings received a card from them Monday morning post marked some where in Arkansas and stated that they and Mr. C. F. Franzen were having a delightful trip. It will be remembered that we stated last week that they were making an auto trip to California.

Miss Ida Joane, who was injured by a speeding auto last week is recuperating nicely at the hospital. Many friends are happy to learn that she is on the way to permanent recovery. Another accident happened a few blocks from where she was hit Friday evening, when the five year old son of Mr. and Mrs. Finley was hit by a passing auto. He was hurried to the West Suburban Hospital and while he was quite seriously injured it is reported that he is also recovering from the accident.

Two treats are in store for Bensenville people this week. "The Big Parade" at Center Theatre both Thursday and Friday evenings. Those who see the Thursday evening show will have the opportunity of going to the Wooddale school house Friday evening and see a real film entitled "The Trail of the Olympian." This picture is being put on by our Wooddale neighbors who invite all who desire to see it, to attend free of charge. We have seen the picture and viewed the

many places where it was taken en route from Chicago to Seattle and recommend those who have seen neither the picture nor the natural scenery to attend Wooddale school house Friday evening and see the picture as it will be well worth your time. The Columbian is the Milwaukee crack transcontinental train and its route lays through beautiful mountains and delightful valleys one who makes the trip can never forget.

The village board held a lengthy session Thursday evening account of the great amount of business before them. D. S. Craig having finished his storm sewer contract and the paving company having completed almost one fourth of their work and tied up for the winter. This called for the paying out of monies and consumed some time. Another matter came up was the opening of bids and awarding the contract for a heating system for the pumping station. F. H. Koelker's bid was \$463.50, while The Franzen Hardware Company bid \$474.00. Mr. Koelker being the lowest bidder was given the contract.

The Bensenville village board were included among the party of friends of Michal Kross who were invited to a dinner given by Mr. Kross at the Medina Club House Friday evening.

L. E. Sampson and family returned from their visit in New York Saturday evening.

Albert Tompkins was ill Saturday and unable to go to his work at Galewood. His mother, Mrs. Tompkins, at Oak Park, visited the family Saturday.

The village board received correspondence from the DuPage Motor Bus Co. asking that they be allowed to attend some meeting of the board as so many people interested in the affairs of the village attend the regular meetings of the board. Their purpose of asking this permission was to get in closer touch with the people of Bensenville, become better acquainted, and obtain suggestions about the service this company is giving Elmhurst, Bensenville, Addison and Itasca. When the letter was read several suggestions were made regarding bus service and we are of the opinion that the motor company are acting wisely in the matter by getting acquainted and finding out just what service would best suit their patrons. Nothing brings better results than co-operation.

For the benefit of all who had chances on the beautiful Paige auto that was raffled at the third annual luncheon given by the C. M. & St. P. Women's Club at hotel Stevens, Nov. 12, we wish to announce that Mrs. Deering, a member of the Council Bluffs club won the car. However she did not have to drive the car home as it was to be delivered free to any point on the Milwaukee railroad and was shipped immediately to the Iowa town to the winner. All who had chances on the car congratulate the lucky lady.

Lavorne Smethurst and family arrived home from Waukegan, Wisconsin Saturday morning and from the number of rabbits and squirrel Vern brought with them, we imagine his hunting trip was a high success. But then he was raised there and always owned a gun and knows just where the wild game hangs out in the fall of the year.

Lucky for the local editor that the Register is going to press a day early this week as it gave him a chance to take Wednesday and Thursday off and attend a ceremonial of the D. C. K. K. at Tomah, Wis., this being the second ceremonial of the order he has had an opportunity to attend during his 7 years spent in Illinois. I know that I will enjoy meeting our old friends and lodge members again, and at the same time get back in time to eat Thanksgiving dinner with my family.

Mrs. Esther Waldron, daughter of Mr. Volberding expects to leave about Dec. 27 for a visit in California.

The bunco and "500" party given by the C. W. C. at Franzen Hall, Saturday evening, was a great success. The hall was filled with happy players and all enjoyed the event immensely. To Mr. Wm. F. Franzen went the honor of winning the highest number of points for men playing 500 and to his wife Mrs. Franzen, the honor of winning the highest number of points among the ladies. Mr. Robert Tonnig drew the man's prize for getting the lowest number of points for the men and to Mrs. Wm. Franzen a prize

MT. PROSPECT

The St. Paul Ladies' Aid will have a bazaar party at the church basement on Thursday, Dec. 1. Everybody invited.

Thursday afternoon, Nov. 17, Mrs. William Eichler of Main St. entertained 12 ladies, it being her birthday celebration. Bazaar was played and the hostess had provided prizes for the winners. Refreshments were served and the friends present wished Mrs. Eichler many happy returns of the day.

Relatives from Chicago as well as a number of friends from Mt. Prospect gathered at the home of Wm. Israel on Saturday evening, Nov. 19. All arrangements had been made without Mr. Israel having any knowledge of same, so it was a complete surprise, just as it was supposed to be. Games were played after which the birthday cake was served. All wished that they might be able to help Mr. Israel celebrate many more happy birthdays.

The Concordia Society gave a very successful bazaar party at the church basement on Wednesday evening, Nov. 16. Miss Edna Kieper was the lucky person to have the highest score so she "brought home the bacon," the first prize being a seven pound strip of bacon which had been donated by Mr. F. Meeske.

Mrs. Muelles, wife of Rev. J. E. A. Mueller, was operated on at the Lutheran Memorial Hospital in Chicago on Wednesday, Nov. 16. Mrs. Mueller is reported doing well and we trust that ere long she will be able to be back at her home.

Mrs. Emil Grimm is at the Palatine hospital with an injured hand.

Mrs. Paul Holste was taken to the Lutheran Memorial Hospital.

Crystal Wedding Anniversary
Mr. and Mrs. Henry Mensching had considerable unexpected company on Wednesday evening, Nov. 16. As this was the date of their Crystal Wedding Anniversary, many of their friends and relatives decided to help them celebrate the event.

Big Night at New Mt. Prospect School

The first public affair to be held in the newly completed public school house took place on Monday evening, Nov. 21, in the form of an achievement meeting followed by a program given by the pupils and other talent. At the close of the program there were short talks by Mr. Wm. Kirchhoff, veteran member of the school board, Mr. H. J. Byrd, the country life director of schools, the architect who had drawn the plans for the school. Mr. John Goss, who had charge of the erecting of the building, and last, but not least, Mr. William Busse, mayor of Mt. Prospect.

Sandwiches, cake, coffee and doughnuts were served by the mothers of the school children. The newly organized orchestra of Mt. Prospect supplied the music for the dancing.

The attendance was splendid, the assembly hall being filled to the last available seat.

Both teachers had worked hard for this day and surely their efforts had not been in vain for the attendance amply repaid them for their efforts.

Many farmers in the Louisiana flood area who had previously grown cotton turned to truck and vegetable growing when the flood subsided. The Department of Agriculture is sending marketing experts to that territory to assist co-operative organizations of these planters in grading and packing products. Many of these farmers have never grown truck crops and are unfamiliar with the processes of marketing.

It has been discovered that former measurements of the earth's circumference were in error to the extent of 30 feet. Someone should be soundly reprimanded for such a stupid blunder.

On the average, each individual in the United States has approximately three hens working for him or her the year round. Of these three, at least one dies or is culled from the flock annually, and there is a demand for more than 100,000,000 pullets to take their places.

"AN EARLY BIRD"

Be sure to attend the play "An Early Bird" by Walter Ben Hare, given by St. John's Y. P. S., West Northfield, Ill., Friday and Saturday, November 25 and 26.

TALKING DRIVERS

A Connecticut judge has taken it upon himself officially to rebuke the rear seat driver.

That's all to our liking. But in the same breath he might have directed his remarks to the other extreme and lashed the man at the wheel who seems to take less interest in the way the car is running than the passenger in the back.

There are far too many such drivers. They carry on heated conversations with their hands, which should be gripping the steering wheel. They turn their heads when they should have their eyes forward. Their minds are on the conversation in the car rather than the traffic around them.

Of course, a motorist needn't ostracize himself from the party altogether. But it must be remembered that while the automobile is moving the main consideration is not the conversation in the car but the traffic outside.

It is quite an achievement to keep eyes and mind on traffic while an interesting argument is going on beside you. To attain this and cultivate it as a habit should be the primary purpose of every motorist. It assures safety.

Anyway, it's the wise man who listens.

SOMETHINGS TO INVENT

Patience! There are a few unsolved problems to yet intrigue the inventive genius. The "good old days" are passing but the future has an ambitious program ahead that shall outstrip the record of the present.

However, there are some very definite things to be done and among them:

The making of a locomotive whistle that has a lullaby effect. A telephone that will send a squirt of water into the ear of the bore who doesn't know when to "hang up."

A lawn mower with legs to carry it home after it has been borrowed by a neighbor.

A golf ball that will send up a signal smoke when it is lost.

A fountain pen that will give off a warning whistle if it is empty before you start to sign your name, rather than cease to fount when you have set down the first initial.

A boomerang collar button and nonskid soap.

A combination scales and camera that records the fisherman's catch.

An electric brooder for thoughts and ambitions.

A player piano that will sound the same to the player as to the neighbors.

WHAT IS A HICK TOWN?

The so-called hick town has been, now and then, the source of great inspiration to professional humorists. "Main Street" didn't make it so. And it was so before the commuters in Hickville, Long Island, tried to change the town's name because it gave a wrong impression of the "exclusive suburb."

Humorists, novelists and urban provincials define the hick town, we read, as a place where backfire is never mistaken for a pistol shot; where policemen sleep at night; where central can tell you whether it is a boy or a girl; where the neighbors will supply you with a conscience if you lack one; where the chewing tobacco is no handicap socially; where there is no traffic or parking problem except on Saturday night; where one knows the family in the next block better than people in the city apartments know each other.

But that is only part of the definition, it is further presented. A hick town is the place that produced twenty-six of the twenty-nine presidents of the United States; where seven out of ten of the immortals in the American Hall of Fame began ascending the ladder to immortality, where most of the great men and women of today call home. The nation in its hour of need went to a hick town for Abe Lincoln. And great cities from little hick towns grew. And a hick town is a place where a boy gets an excellent opportunity to lay the foundation of future greatness.

More interesting than what is a hick town would be to learn how large is a hick town. Philadelphia, St. Louis and San Francisco are hick towns to New Yorkers and Chicagoans no less than is the community of 1,000 population a hick town in the eyes of the citizens of the neighboring town of 2,000 inhabitants.

—We read that "one of the parties" in a Nebraska divorce suit used 4,800 words in answering one question. The reporter might have given the lady's name.

Poor innocent ginger-ale and cracked ice now come under prohibition's ban, the idea being a great deal like the father who makes the whole family go to bed because he is sleepy.

Illinois ranks third of the states in the envelope industry. Its 22 plants, in 1926, had an output valued at \$8,500,000.

A Grand Dance will be given at the Union Hotel, Wheeling, Ill., on Saturday, Nov. 26, under the auspices of the P. T. A. Dancing for young and old. Music by the Hapke's orchestra. Admission 50c. Proceeds will go to the benefit for the Wheeling school.

EAST MAINE

Quite a number of East Mainers attended the funeral services for Good Wm. Schoenbeck at Glenview Friday, Nov. 18, who passed away at his home after a lengthy illness. He was a former resident of East Maine having spent the greater part of his life in this vicinity on the farm just recently vacated by John Weber. Mr. Schoenbeck was 60 years old at the time of his death.

Mr. and Mrs. Albert Ahrens were host and hostess to a large crowd of friends Saturday evening at which time a raffle of ducks and geese was held. Everyone seems to have had a good time and many went home with prospects of a nice goose dinner for Thanksgiving.

Remember the bazaar party to be given by St. Matthews Ladies' Aid at the school house Friday and Saturday, Dec. 2 and 3. This is the last party the ladies will stage before the holidays and they are desirous of making it a bigger success than ever before. You are all invited to come and have an enjoyable evening.

Miss Clara Geweke is accompanying Mrs. Anna Goede and her two daughters, Helen and Mildred on a trip to Florida. They left here Monday morning bright and early in Goede's new Buick, intending to travel leisurely enjoying the trip as much as possible. They will visit at Jacksonville, Palm Beach and Miami planning to stay in the balmy south for a few months. Miss Geweke however, may return before her companions.

In the month of November there is one day which interests the members of St. Matthews Lutheran choir more than any other and that is the date of the choir's anniversary, and which is annually celebrated. This year marked the 15th anniversary of the organization of the choir and a banquet for the members was held at the school hall Thursday, Nov. 17. Amid decorations of yellow and white with large yellow mums as favors, the five course dinner was served and according to evidence, same was thoroughly enjoyed. Later numerous lively and interesting games were played with appropriate prizes being awarded in some of them. The evening passed all too quickly and the approach of midnight saw the members happily though reluctantly departing from the scene of their joyful celebration.

WHEELING

The Messrs. Chas. Balling Sr., and Jr., left on Thursday the 10th, for California in Chas. Jr.'s Chevrolet. Cards from along the trail tell of a pleasant trip and with continued good fortune, they hoped to make the trip in 11 days. Mrs. Balling and daughter, Dorothy, preceded them to Pasadena by train. They will make their home in Pasadena for the winter, while Chas. Jr. enters the aviation world at a near-by field.

Mr. and Mrs. Harry Paltz are living in the Balling home during their absence. Mr. Paltz is one of the new proprietors of the Wheeling Farms.

The O. W. Walker family have moved into the Presbyterian parsonage. The Rev. E. L. Shaw will make his home with them there.

Miss Grace Hank entertained the members of her Sunday school class at her home on Saturday afternoon.

Mr. and Mrs. J. A. Schminke left Monday morning for Lamera, Texas, where they will spend about six weeks with the Robt. Kirk family. From there, they will go on to Eagle Rock, California, where they will spend the rest of the winter with relatives.

Announcement was made in the Presbyterian church of the renewal of the Sunday evening services. Beginning next Sunday, Nov. 27, there will be two services of worship. The morning service at the usual hour of 10:45 and the evening service at 7:30 o'clock. Members and friends of the church are especially urged to attend these services and meet the pastor.

Wheeling Couple Have Golden Wedding

Mr. and Mrs. Albert Karth, with their children, grandchildren, great grandchildren, and friends made merry, in honor of their 50th wedding anniversary last Saturday evening.

The guests assembled in the home, which was prettily decorated for the occasion, at 7:00 o'clock p. m. The Rev. E. L. Shaw opened the ceremonies of the evening with an appropriate message, after which a delicious wedding dinner was served. After the dinner the evening passed quickly in a festive fashion, with games, music and songs. The bride couple were showered with congratulations, flowers and gifts of gold. Each guest received a small token in the shape of a golden leaf.

Mr. and Mrs. Karth were both born in Germany, where also, they were married on Nov. 16, 1877. In 1882 they came to America and located in Chicago. In 1920, they chose to make their home in the country and came to Wheeling, where they have lived since.

The following relatives and friends were present at the anniversary celebration: Mrs. Chas.

Kotwitz, Ella and Wm. Kotwitz, da and Elmer Wolf and Miss Dorothy, Mr. and Mrs. Herbert Kotwitz of othy Chester of Chicago; Mr. and Mrs. Fred Wolf, Mr. and Mrs. F. C. Johnson and family, Mr. and Mrs. Edw. Wesolek and sons, and Mrs. Chas. A total of \$1,285,101.70 was returned by the Federal Government to the States for roads and schools during the last fiscal year, under the law providing for the re-transfer of 25 per cent of the receipts of the National Forests. The total receipts of the National Forests from timber sales, grazing and other sources were \$5,166,605.74.

Farmers in Argentina are growing nearly 20,000,000 acres of wheat this season for threshing next spring. Flaxseed accounts for nearly 7,000,000 acres which is more than the combined acreage of oats, barley and rye.

Prepare for Cold Weather

Look over your heating plant and plumbing now to see if it is ready for use when cold weather comes. We are ready at any time to make any repairs you may need. All work guaranteed.

Reveal Contents Of Cornerstone In Old Church

The corner stone of the Libertyville Presbyterian church that was laid 46 years ago, was opened last week preparatory to erection of a new building.

Two small vials, carrying wine and oil, and a package of corn were among the first properties to be found. These showed that the Masonic order had charge of the first cornerstone laying as corn, wine and oil form one of the emblems of the lodge.

Two small Bibles, unchanged by the long period of entombment, were also drawn forth.

Lists of names covering the pupils in the public schools at the time and the members of the church were also packed away in the stone. Then, as is the case now, those among the newspapers found were the Diamond Lake Herald, the Libertyville Times and the Chicago Morning News.

McHenry Bridge Is Now Complete; One Of The State's Finest

The new bridge over Fox river at McHenry was opened for traffic last week. This is the final connecting link in Route 20 and has completed the state highway which extends from Waukegan to Woodstock, perfecting the route to Chicago and connecting up with other lines in all directions. The construction of the bridge was begun about the first of December of last year, and has progressed much more rapidly than was at first expected.

This beautiful structure, which cost the state about \$90,000, is eight spans, each span being 65 feet in length and consists of concrete throughout, including deck and rails. The total improvement covers about 800 feet while the bridge proper is about 500 feet. It is supported by seven piers parallel with the current of the river and has about fifteen feet of water clearance making ample allowance for the passage of pleasure and passenger boats.

The railing is a simple design with fifteen inch arches. The roadway is thirty feet wide with a five foot walk at each side which will alleviate the congestion of traffic and danger of accidents. About 3,000 yards of concrete and 200 tons of reinforcing steel were used in the construction of the bridge.

Plans for Big Race Track Lake Co. May Be Dropped

The apparent victory of Flem O. Sampson, Republican candidate for governor of Kentucky, which means the preservation of horse racing in the blue grass state, is expected to end plan to establish a large race track in Lake county, according to T. J. Stahl, well known Waukegan real estate operator.

According to Mr. Stahl a large Kentucky syndicate has been in close touch with him for the last few weeks with a view to obtaining options on a large tract of land in Lake county to be used as a race track in case the Tuesday election banished horse racing from Kentucky as some seemed to think was possible.

The defeat of Mr. Sampson practically would have spelled defeat for horse racing in Kentucky and if this had been the outcome it was planned to start the big race track here immediately.

Average Corn Yield is 30 Bu.

Corn in Illinois showed further improvement in October and the average yield November 1, was 30 bushels an acre, crop correspondents for the Illinois and Federal departments of agriculture reported last week.

Although the yield and quality of corn are below average, the record breaking, warm weather with abundant sunshine through most of September and early October improved the Illinois corn crop beyond the most optimistic expectations of early season. Favorable corn weather, however, came too late to offset entirely the handicap of late planting and early growth conditions.

With some exceptions, largely in the southern part of the state or less important corn areas, killing frosts were not extensive until October 14. In east central and in some upper central localities, killing frosts did not occur until later in the month.

Crop correspondents reported 58.5 per cent of the state corn crop fully matured on November 1, 28 per cent in hard dough, 10.2 per cent in milk and 3.3 per cent below milk stage of development at the time of the killing frost. This statewide survey further disclosed there will be an ample supply of seed corn quite generally, as 31 per cent of the crop is reported fit for seed.

September and October temperatures averaged more than four degrees above normal and were favorable for hastening maturity and drying out corn generally in the state.

The average quality of corn for the state is rated at 67 per cent compared with 73 per cent last year and the past ten year average of 81 per cent.

Of course Jack Dempsey is willing to fight Gene Tunney again. Who wouldn't be willing to take on a couple of black eyes at \$225,000 each?

In Mexico it seems that presidential candidates must "choose to run" if they choose to live.

Schumacher Gets From 1 to 14 Years in Prison

William Schumacher, 28, self-confessed slayer of his father, was sentenced at Woodstock last week to serve a sentence of from one to fourteen years.

Waiving the assistance of counsel, young Schumacher pleaded guilty to manslaughter before Judge Arthur E. Fisher, who passed sentence. The youth's mother testified to her husband's cruelties.

Schumacher entered a plea of guilty to manslaughter. He told the court that he did not have an attorney and he did not want one. "I am ready to start serving my sentence at once," stated the youthful slayer.

Family Story
Attorney Lumley told the court that he wished to have William and his mother tell the story of the family life and the numerous beatings administered by the father to both the children and Mrs. Schumacher. William started from his early childhood and told of the numerous beatings he had received from his father. He told of the terrible names called him by his father and also called his mother. He said that his father said that he was not his son.

Still Loves William
Mrs. Schumacher stated that she still loved her son and during his whole life he had never said an unkind word to her and that he was always defending her from his father. She said that the reason she never left her husband was that she loved him when she married him and she thought it was her duty as a Christian to keep her marriage vows.

It has been said that William killed his father to protect his mother and brothers but even this did not hinder his being sentenced and as he walked from the bar of the court he looked straight ahead, never once glancing in the direction of his mother, sweetheart or his brothers. He knew that they were there, but it seemed that a load had been lifted from his mind and all that he thought of was the "cold prison bars."

The slayer will be taken to Joliet sometime within the next ten days. There he will be confined for not less than one year and not more than fourteen. However, in William's mind he's going there with the thought that his wonderful mother can live in peace and that she will not have to fear the wrath of her husband.

Complete Costly Depot In Mayfair This Year

The new Mayfair depot, at Montrose avenue, on the Northwestern, may be expected to be done by the first of the year, believes A. A. Colvin, engineer in charge. Trains now stop at the new elevated platforms. The station is being built under the tracks on the south side of Montrose, the heavy concrete structural work is going in. There remain the complete walling-in, the flooring interior finishing and installation of fixtures.

The general arrangement resembles the more important "L" or Illinois Central stations. Entrances will be in the colonnade beneath the viaduct. A west entrance leads directly upstairs to the north-bound platform, or by a side door through a partition, to the waiting room. The east entrance opens directly into this spacious waiting room, lined with white tile. At the left, facing Avondale avenue, will be the agent's office, and a door leading to the large baggage room with elevator, also to the southbound platform.

Both platforms extend all the way, southeast to other entrances on Kostner avenue. Well lighted, sheds 255 feet long will be constructed, and warming shelters built.

The change of station site to Montrose avenue, a car line street, is a part of the plan of the recent elevation of the Northwestern tracks north to Jefferson Park, on the main line of the Wisconsin division, and of the Mayfair cut-off to north of Foster avenue. The elevation, retaining walls, viaducts and station are to cost approximately \$3,000,000, says Mr. Colvin.

Youth Wounded When Boy Plays With Gun

Curiosity of Burl Schaffer, aged 14, residing four miles north of Libertyville, nearly cost him his life Nov. 14, when a bullet accidentally discharged from a pistol in the hands of a playmate entered his right breast a few inches from his heart at 6 o'clock Monday evening. The gun, a 22 calibre revolver, was accidentally discharged in the hands of Taoulan Jakinen, age 16 years, while the two boys were examining it. This is another example of the folly of allowing minors to carry firearms.

An Atlanta man was arrested for spanking his 19 year old daughter with a razor strop, and the judge bound him over with the statement that spanking is no way to punish a young woman of that age. We think the judge is wrong—he ought to get that man a Carnegie medal for bravery. How many men would dare tackle a modern flapper with a razor strop?

Metals Long in Use

Spectrums of iron have been found in Assyrian and Egyptian ruins. In the British museum there is a piece of iron believed to date from 4000 B. C. Copper was known and used by man from the most remote periods. Its alloy with tin (bronze) was the first metallic compound in common use. Copper remains have been found in Egypt dating back to the Fourth dynasty, 3500-4700 B. C.

Plant Grows Extensively

The plant known as traveler's joy is Clematis vitalba. It is the only species native of Great Britain, where it is common in the south, but becomes rarer toward the north, and is scarcely found in Scotland. About 20 species are indigenous to North America and of these Clematis virginiana, or virgin's bower, is very widely distributed.

Closest to Jerusalem

Writing of the architecture of the synagogue, W. G. Tachy says, "The Holy of Holies, originally designed as the space for the Ark of the Covenant, is always raised above the floor level and is placed against or in the wall that lies nearest to Jerusalem."

Record Piece of Freight

It is said that the largest piece of freight ever shipped over a railroad was a tower used in the manufacture of gasoline. This was delivered at Los Angeles from Boston. It is 15 feet high, weighs nearly 80 tons and was carried on three flat cars.

Keeping Lemons

Lemons may be saved from getting hard by keeping them covered with cold water. It is said that lemons kept in this manner will also be more juicy. The water should be changed once a week.

Wm. Haines Program At Uptown Theatre

Golf and girls—you can't escape either is the sage observation of William Haines when his latest picture, "Spring Fever," has concluded its comic and romantic course. "Spring Fever" is the feature film at the Uptown next Monday.

The increasingly popular Mr. Haines is cast in another brash role. Having made smart-alecks famous in "Tell It to the Marines" and "Slide, Kelly Slide," Haines does even more for this type of young America in "Spring Fever." He plays a shipping clerk whose passion is golf. And George Fawcett is the shipping clerk's employer—and his passion is golf.

So it isn't so surprising when Mr. Fawcett gives a guest-card for his exclusive golf club to the young shipping clerk. Posing there as a man of means, Haines gets into many comic and romantic difficulties.

Joan Crawford is opposite Mr. Haines as the pretty and financially-bent young woman who is also posing at the golf club. When they marry—but it is best not to tell the amusing results of their elopement.

On the stage at the Uptown next week, Benjie Krueger and his orchestra, with a group of stage stars, will entertain "Rancho Caprice," an unusually beautiful stage revue, elaborately costumed and decorated with brilliant settings. The famous Albertina Rasch dancing beauties are featured in "Dance Caprice," with Arlyne Crandall and Marjorie Main providing some lovely dance moments. The eccentric hooper, Cy Landry, is in the cast, as well as Lila Hoffman, prima donna.

Desert Drama to Show at Norshore

Al Kvale, whose clowning antics and brilliant musical work has made him the idol of thousands of North Side theater fans, plans a series of huge stage shows in the spirit of the big motion picture attractions that are soon to be shown at the Norshore Theatre.

One of the greatest desert romances ever filmed, "The Garden of Allah," a Rex Ingram production of Robert Hichens' famous novel, will be the Norshore Theatre's screen attraction starting Sunday.

Set in the sand wastes of the Sahara, the locality in which the story takes place, it has authentic reality. It tells the tale of a Trappist monk's love for an English girl, of his marriage to her, and of his subsequent return to the monastery after three months spent with her on the desert.

Alice Terry in the role of Domini, the girl who sends her lover back to the rigid seclusion of his cell even though she is rapturously in love with him at the time, has the greatest opportunity of her career.

"The Garden of Allah" is a haunting romance filled with passion, heartbreak and thrilling adventure.

"Man, Woman and Sin" Bill at Chicago

Amazing in its portrayal of what goes on behind the scenes in the newspaper world, "Man, Woman and Sin," Metro-Goldwyn-Mayer's ultra-modern romance starring John Gilbert, is a picture that astounds and grips by its fascinating disclosures. The greatest story of the Fourth Estate that has yet come to the screen. It will be shown at the Chicago Theater starting Monday.

The scenes are laid in the nation's capital against a background of intrigue and politics. Figures of national and international import take part in it. Its feature is the Embassy Ball, the most important social event that takes place on U. S. soil.

Jeanne Eagels, famous star of the phenomenal stage success, "Rain," appears as a fascinating lady of mystery and charm, society editor of a great daily, mistress of its powerful owner and beloved of a young reporter. Gilbert, as the reporter who goes through a soul-searing experience, has one of the most tensely appealing roles of his career.

Monta Bell, himself a newspaper man, wrote and directed the film, laying its scenes in the local room in which he familiarized himself with the newspaper world.

On the stage, the Chicago Theater will display the peppy, romantic creation, "Dixieland," featuring all the romance of the Old South plus the fire and music of the New.

GRAND OPENING

Only 30 Days Till
Christmas

A year's subscription for this paper makes a very acceptable Christmas gift.

"Ben-Hur" Contains Dramatic Intensity

"Ben-Hur," the Metro-Goldwyn Mayer film now playing at the Balaban & Katz McKivickers Theater, owes its popular success not only to the grandeur of its spectacle and the absorbing nature of its action but likewise to the love story of Ben-Hur and Esther and the other love motif 'twixt mother and son which is brought powerfully to the fore through the many years of separation of Ben-Hur and his parent by the Romans who condemned him to the galleys and his womanfolk to a forgotten dungeon.

The vivid picture shows us his escape and retrieval, triumphant chariot race, romance with Esther, and his return to Judea, fired by the hope of the Messianic kingdom. The outcast mother and sister find the young hero asleep, but in a scene of infinite pathos turn away so as not to contaminate him. Their reunion with the loved one after they have been healed by the Saviour, is perhaps the most exquisite passage in all film fiction.

Sophie Tucker at Oriental Theatre

Sophie Tucker in person. That's the delectable dish of entertainment in store for Oriental Theater patrons next week when Mark Fisher has his "All Star Revue" with the genial and brilliant Sophie leading the parade of stars. Sophie's appearance at the Oriental is the second of a three week contract she entered into with Balaban & Katz, which calls for the pump singing comedienne to receive a stipend of some \$7,000 per week.

During it down by simple arithmetic, each time Sophie will step out upon the stage at the Oriental for each of her four daily performances, she will be approximately \$250 richer than she was the minute before she walked out.

Anyway, huge salary or not, Sophie Tucker's legion of Chicago friends will undoubtedly turn out to see her and hear her sing her songs as she alone can sing 'em.

Incidentally this is her first appearance in motion picture theaters. It is the first time she will appear in theaters where popular prices prevail.

On the screen that week will be Mary Astor and Gilbert Roland in a magnificent romantic spectacle called "Rose of the Golden West."

They also had a special faculty of getting "knocked out." Palatine's line bucking was excellent. The touchdowns were made by Ray Smith, A. G. Smith and Ralph Sutherland.

The electric road ordinance passed November 3 by the village board has been accepted by the promoters.

The boys say they have it in for Hank Grebe and will make him "shell out liberally" if he gets married.

Dennis Putnum's hardware store at Wauconda was entered by burglars recently and about \$40 worth of ammunition stolen.

Try Booster Pump On Local Fire Truck

Another demonstration of the Barton booster pump was held last Friday evening. This time the pump was used on the local fire truck and the results obtained were very satisfactory to the assembled firemen.

The added distance which can be gained by the use of the booster pump would be of great importance in case of a big fire and the spray like effect would also be of untold value in case of a bad blaze.

The Barton pump, we are informed, may be purchased for about \$800 and from the favorable impression which the two demonstrations have made it seems probable that favorable action will be taken by the village and that a new Barton booster pump may be added to Palatine's fire fighting apparatus in the near future.

Man's Inferiority

Civic Association Elects Officers

Twenty-one members of the Glenview Civic Association voted in three new directors and twenty votes were cast for a change in the by-laws of the organization.

The outgoing directors were Emory Blean president of the organization completing the unexpired term of Richard Rugen, George Morton, Nellie Synnestvedt, who chose to run again and was re-elected to succeed herself. Robert L. Wyatt and P. W. Beda were the other two successful candidates.

The amendment to the by-laws was proposed as a result of controversy on the part of members of the organization when it was proposed that the civic board erect street signs in the village. The organization founded seven years ago had its inception in the desire to better the village from a civic standpoint, the principal objective being the establishment of a civic center, consisting of a square and community house.

During that period boards of directors have come and gone, meetings of the membership, have discussed plans, ways and means of financing a building, but as yet no means have been found of satisfying the body.

Ground purchased and paid for 5 years ago has been landscaped with the cooperation of the American Legion. The question of using the funds is again before the board and the change in the by-laws means an easier road to travel along the line.

The election of officers for the coming year will occur at the regular monthly meeting the third Tuesday of this month.

The personnel of the board is: A. E. Nelson; C. A. Bartling, F. G. Rugen, Arthur Palmgren, P. W. Beda, Robert L. Wyatt, Alice Ludden, Wilma Wheeler, Nellie Synnestvedt.

Church News Of Glenview

The annual bazaar and supper given by the Congregational Ladies Aid last Thursday, Nov. 17, was well attended and enjoyed.

The usual sale of hand made garments and linens was conducted. The Ladies' Aid of the Catholic church are making plans for a dinner and Christmas sale for early December.

Members of the Federation of Ladies' Aid Societies of the Methodist church, who attended the meetings at the Central Y. M. C. A. in Chicago last week, were Mesdames Lester Stanton, B. E. Gould, Charles Bertling, C. D. Rugen and Emory Blean.

Union services for Thanksgiving will be held at the Methodist church at 8:30 Thursday morning.

Rev. Ivan R. Smith, pastor of the Congregational church, will give a short address.

Rev. Lester Stanton, pastor of the Methodist church, has charge of the program and extends a general invitation to all.

The Methodist Ladies' Aid are now holding all day meetings with luncheon at member's homes in the last preparation for their annual bazaar on Dec. 1.

Troop 55 Still There with Work

The large Troop 13 of Kenilworth won first place in the inspection, at the court of honor, last Friday night. Glenview tried for it, and lost. But the local troop did come in second, and the boys learned more about inspections than as though they had made first again.

Many awards were made, the most interesting of which was the presentation of a Hero Medal for life saving, the first to be given out in this council. It went to a scout of Troop 7 of Wilmette, who saved a life on the beach at Wilmette in June.

The local boys are to have a camping trip to the "Cabin in the Woods," Friday afternoon and all day Saturday, Dec. 2 and 3. Great preparations are being made.

Look Over Birth And Death Records

State Inspector, Wineteer, of the Bureau of Vital Statistics, Springfield, Ill., was a Palatine caller last week, making his regular rounds to look over the birth and death records of the village and city clerk's in this territory. The state keeps a very close check on all births and deaths, and there are very strict laws providing for the filing of these certificates within prescribed periods of time after a birth or death.

Undertakers must also have a permit before burying a body and in every way the state keeps a close tab on conditions.

Mr. Wineteer called on village clerk Hart here, whom he has known for many years, as one of the clerks whose records are always in order. When physicians or undertakers are slow in reporting to the clerks the inspectors visit them and remind them of their duties under the law. The clerks are required to keep a copy of all births and deaths and each month they must send a copy to the county clerk and the original certificates to the Bureau of Vital Statistics at Springfield.

Just to show how close a check the state keeps on us, all the Bureau of Vital Statistics, where the births and deaths are reported, compare reports with the state health department, and if the health department find that a death has occurred from a contagious disease, that was not reported in regular form, there is a great commotion and clerks, doctors, undertakers, and all officials connected with reporting and registration are called on the carpet for an explanation.

We may think that no one knows anything about us, but the state has a record of us now days from the cradle to the grave, and a list of all our ailments on the way.

Boxing Contest at Heine's Wednesday

Mr. Heine has arranged another boxing contest, which will be held at his place six miles east of Elgin Wednesday evening, Nov. 30. The contestants are Porky Flynn, of Franklin Park vs. Frankie Brown, of Elgin; Ham Hass of Mt. Prospect vs. Charles Connelly of Batavia; Jimmie Lawson of Huntley vs. Jack Rath of Chicago. The main bout will be Frank Russil of Cary vs. Steve Cherpeca, of Elgin. Dancing will follow the boxing with Babcock's orchestra furnishing the music. Gents, 75c; Ladies 35c.

Dramatic Club Play Is Successful Here

Members of the Glenview Dramatic Club made its bow for the 1927-28 play going season, last Friday evening in a most successful interpretation of a three act farce entitled "Her Gloves."

Several new members were included in the cast and played to a full house of appreciative friends, who vote it the best given yet by the club.

The play was given in the school auditorium, outside talent directing. The Dramatic Club in the third year of its growth is increasing its membership to such an extent that new material is being used for each successive play.

Methoist Episcopal Church
E. Lester Stanton, pastor, on Monday morning the pastor took the Thanksgiving offering of our church down to the Italian Mission in Chicago. They were very appreciative. There was in cash \$18.96 and quite a supply of vegetables and food. Surely now we can better enjoy our own plenty.

Next Tuesday evening at the parsonage the choir will begin work on the cantata for Christmas. On Tuesday at 8 o'clock.

Thursday afternoon and evening the ladies' aid will hold their usual December Bazaar. Supper will be served from 5:30 on.

Wednesday, Dec. 7, at 8 o'clock at the Glenview school, the cast, about which you have heard, will present the play, "Betty."

There are plenty of protestants who worship the preacher. When they go to church, they go to hear him preach. Whatever else happens, is just preparation for their great event, the sermon by their favorite preacher. This seldom lasts long. They learn that the preacher is human, and then they stop worshipping him. That means for them, that, of course, they stop going to church. Catholics are never in doubt as to the object of worship. It is God.

We are Christians, because by following Jesus, we find God. Come to His temple, and worship him, in spirit and in truth.

R. N. A. Sewing Circle Elects at Glenview

Mrs. P. W. Beda was hostess to the Royal Neighbors Sewing Circle Wednesday, Nov. 16.

It was the annual election of officers. The following members were elected. Mrs. C. L. McCuen, president; Mrs. Anna Wallace, vice president; Mrs. Marie Carr, secretary; Mrs. M. Grant, treasurer.

New Important Work

In former days the making of sweetmeats was part of a drug business, but in the earlier half of the Nineteenth century it developed into a separate industry in England.

Rewarded Peary's Discovery

Robert E. Peary, then a commander of the United States navy, reached the North pole on April 6, 1896. The United States government raised him from the rank of lieutenant to that of rear admiral as a reward for his success in discovering the pole.

LET'S FINISH THAT GYM

As stated in this paper last week there are some public spirited citizens in Palatine who are willing to dig down into their pockets to get enough money together to complete the gymnasium in the new high school building. If this gym could be completed and put in use it would be more than a mere gymnasium or playground for the children. It could be used as a community house for various and sundry affairs, which require an adequate space and seating arrangements. We are getting nowhere by making demands and calling each other names. The only way in which that buildig can ever be completed, is by some sort of a compromise being reached between the warring factions. The more noise and the more rabid agitation, the farther away is the day of compromise and construction of that building. Meanwhile if there are 100 or so public spirited citizens in Palatine, who will dig down for about fifty bucks apiece that gymnasium can be got in shape to be of some use to the community. The Enterprise knows of several individuals who are willing to do this for the welfare of Palatine and for the benefit of the youngsters and the community. Are there any more of you gentlemen that will volunteer to join these few who are ready to act?

And by the way, strange as it may seem everyone of those men who have so far signified their willingness to donate \$50.00 each to the good cause, are what might be called "neutrals," they have not been identified with either side in the present school controversy, and they are not among those who shout loud words of advice from the sidelines. They are men who, for the welfare of Palatine, want to see this question settled and they are willing to do everything possible to bring about a compromise, even to helping finish part of that building out of their own pockets.

Are there some more like them in Palatine? Here is a real opportunity for service, step forward gentlemen, don't crowd.

Wanted—One hundred earnest cool-headed citizens, who have \$50 worth of faith in Palatine and Palatine's youngsters.

Orchestra Organized
For Tri-Sigma Play

A string trio will furnish the music for the Tri-Sigma play at the Arlington Heights High School next Tuesday, November 29.

Mrs. Adelaide McCrimmon will play the violin, Mrs. Elsie Moodie will play the piano, and Mr. Frank Robbins will play the cello.

Mr. Robbins plays an instrument that has crossed the Atlantic ocean twenty times. He played on one of the transports during the war.

This Trio will play for other Tri-Sigma affairs and will be featured when the new Community House is opened.

North Shore Zone Rally of Walther

On Sunday, November 20, the quarterly rally of the North Shore Zone of the Walther League took place at St. Paul's Evangelical Lutheran church at Niles Center. The business meeting opened with song and prayer lead by Rev. Detzer. This meeting was, indeed, very interesting from the standpoint that the election of the Zone officers was held. The following were elected and will take office January 1, 1928: Mr. Luther Henry of Waukegan, president; Miss Esther Zerger of Mundelein, secretary-treasurer; and Mr. Earl Camron of Wilmette, field secretary.

After the meeting, a very delicious supper was served by the Ladies Aid in the assembly room of the church, which consisted of many different kinds of sandwiches, as many or more kinds of cake, coffee, and the festive "pink ice cream."

At 7:00 p. m. Mr. Carl J. Weiss of Chicago rendered a fine organ concert on the new Wangerin pipe organ. The musical selections given by Mr. Weiss are:

1. (a). Caprice Heroique, Bonnet; (b) Where Dusk Gathers Deep, Stebbins.

2. (a) Sonata, E. Minor (1st movement), Rogers; (b) Will Of The Wisp, Nevin.

3. (a) Large Handel; (b) Evening Star, Wagner; (c) Fantasia on Church Chimes, Harris.

In playing the above numbers, Mr. Weiss truly converted so many pages of black and white notes into ethereal music, music that held the audience entranced during the entire program.

Mrs. Phoebe Selle Biederstadt, who studied with Prof. Wm. Nelson Burritt of New York and Paris, and who is also a graduate of the Chicago College of Music, sang the solos entitled "Bow Down Thine Ear" by Jenko, and "Song Of Thanksgiving" by Allitts in a most charming manner. Rev. H. Meyer of Wilmette played a violin obligato with the latter solo.

Mr. Arnold Selle of Chicago also sang "Hymn Of Glory" by Yon, which was, indeed, very highly appreciated by those in the audience. Both Mrs. Biederstadt and Mr. Selle ingratiate tone quality as well as volume of voice, which point was proven by the smiling, appreciative countenances of the audience, as well as the hearty applause after the rendition of these solos.

Prof. G. C. Barth talked interestingly regarding the curriculum and work of the boys at Concordia College, of which he is the president.

Immediately after Prof. Barth's address, Miss Florence Schuhrke sang "One Fleeting Hour" with a great deal of expression. Rev. Meyer played a violin obligato to this solo also. His obligatos were appreciated and added much to both vocal numbers.

Games followed, in which those who stayed took part heartily.

Hunting Alaskan Bear

The Alaskan bears have been hunted with perfect safety from boats among the coastal islands, and they are also comparatively easy to kill among the mountains where they come in the night to catch salmon. In this hunting the hunter lies in wait, and pots down from a safe distance. But at that time of the year the fur is not prime. The true sportsman goes up into the mountains in the early spring, still-hunts his bear and kills him often at close quarters—unless he gets killed himself.
